

GENERICS ONLY PRESCRIPTION DRUG LIST

July 2015

The Generics Only Prescription Drug List offers affordable coverage of generic prescription medications at two levels. The amount you pay depends on the tier from which you and your doctor select your medication. The following is a list of the most commonly used medications covered under your plan.

Together, all the way.®

Offered by: Connecticut General Life Insurance Company or Cigna Health and Life Insurance Company.

827365 | 04/15

1st Tier – Preventive Generic Medications: Preventive generic medications for certain conditions such as diabetes, asthma, heart disease and cholesterol are available on the first tier. You will usually pay less for preventive generic medications under your plan.

2nd Tier – Other Generic Medications: All other generics aside from preventive generics are available on the second tier. These medications will usually cost more than preventive generics under your plan.

The symbols on the list mean

If a medication on the list has one of the following symbols, your doctor may need to get an authorization for coverage of that medication.

PA: **Prior Authorization** may be required for different reasons. To learn the requirements needed for coverage of a specific medication, feel free to give us a call.

QL: **Quantity Limit** means you may have coverage for a limited amount of a specific medication.

AGE: **Age Requirement** means an individual must be within a specific age group for a specific medication to be covered.

ST: **Step Therapy** is a prior authorization program that requires you to try other medications available to treat the same condition before the “ST” medication is covered.

* Medications marked with an asterisk are considered to be specialty medications. These medications must be obtained from a preferred specialty pharmacy. Some plans may cover specialty medications at different benefit levels. Refer to the Specialty Pharmacy Drug List for more information.

Important note

The Generics Only Prescription Drug List only covers generic medications and does not offer coverage of brand name prescription medications. For all other medications, you will be responsible for paying 100% of the discounted cost.

Health care reform and you

The Patient Protection and Affordable Care Act (PPACA), commonly referred to as “health care reform,” was signed into law on March 23, 2010. This important legislation will result in changes to every American’s health coverage. Some of the changes took effect in 2010 and most of the law’s effects will be felt by 2014. Cigna will comply with all provisions of the law including those that impact your pharmacy coverage plan. For example, depending upon the final government regulations, coverage for medications that have not traditionally been included in pharmacy plans, such as specific over-the-counter (OTC) medications, may be made available at no cost share to you. As with all covered medications, we would require a prescription from your doctor to process the claim under your pharmacy plan (including OTC medications).

To get the most current information, visit **InformedOnReform.com** or **Cigna.com** and look for the “Informed on Reform” link.

If you have any questions

Remember, this list is just a sample of the most commonly used medications, and is subject to change. You can use the Prescription Drug Price Quote tool available on **myCigna.com** to see and compare the prices of all medications covered under your plan. Or, you can call the number on the back of your ID card to speak with a customer service representative at any time.

Generics Only Prescription Drug List

PREVENTIVE GENERICS

OTHER GENERICS

ADD/ADHD AND STIMULANTS

amphetamine/dextroamphetamine
amphetamine/dextroamphetamine XR
clonidine HCl
dexmethylphenidate
dexmethylphenidate HCl
guanfacine
methamphetamine
methylphenidate HCl
methylphenidate/ER/ER 24HR
modafinil

AIDS/HIV

abacavir*
abacavir/lamivudine/zidovudine*
didanosine*
lamivudine*
lamivudine/zidovudine*
nevirapine*
nevirapine ER*
stavudine*
zidovudine*

ALLERGY

Medications for allergies equivalent to over-the-counter medications within the class are excluded such as Clarinex, Xyzal, including their generics, etc.

azelastine nasal
demastine fumarate
cypheptadine
epinephrine (QL)
flunisolide nasal
fluticasone nasal
hydroxyzine
ipratropium nasal
levocetirizine
montelukast sodium
olopatadine nasal spray
triamcinolone nasal

ALZHEIMER'S DISEASE

donepezil HCl
galantamine hydrobromide
rivastigmine tartrate capsules

PREVENTIVE GENERICS

OTHER GENERICS

ASTHMA AND RESPIRATORY

albuterol solution (nebulizer solution)
 albuterol sulfate (syrup, tabs)
 albuterol sulfate/ipratropium
 budesonide
 caffeine citrate
 cromolyn sodium (nebulizer solution)
 dyphylline
 guaifenesin/theophylline
 ipratropium bromide (nebulizer solution)
 levalbuterol
 metaproterenol sulfate (syrup, tabs)
 montelukast
 ractepinephrine HCl
 terbutaline sulfate
 theophylline anhydrous
 sildenafil*
 zafirlukast

prednisolone sod phosphate

ANXIETY

alprazolam
 buspirone
 diazepam
 lorazepam
 oxazepam

BIRTH CONTROL

Exclusions & Limitations

Plans typically do not provide coverage for the following, except as required by law or by the terms of your specific plan:

1. Any medications available over-the-counter (OTC) that do not require a prescription by federal or state law, and any medication that is a pharmaceutical alternative to an OTC medication other than insulin [examples include OTC Benadryl, Maalox, Sudafed PE, etc.].
2. Medications that are therapeutically equivalent as determined by the Cigna HealthCare Pharmacy and Therapeutics Committee in which at least one of the medications within the class is available over the counter [examples include Rx equivalents to OTC Allegra, Claritin and Zyrtec (Allegra D, Clarinex, Xyzal) and Rx equivalents to OTC Prevacid, Prilosec and Zantac (Aciphex, Kapidex, Nexium, Acid, Pepcid, Zantac)].
3. Any injectable infertility medications, and any injectable medications that require health care professional supervision and are not typically considered self-administered medications. The following are examples of health care professional-supervised medications: injectables used to treat hemophilia and RSV (respiratory syncytial virus), chemotherapy injectables and endocrine and metabolic agents.
4. Any medications that are experimental or investigational within the meaning set forth in the summary plan description.
5. Food and Drug Administration (FDA) approved medications used for purposes other than those approved by the FDA unless the medication is recognized for the treatment of the particular indication in one of the standard reference compendia (The United States Pharmacopoeia Drug Information or The American Hospital Formulary Service Drug Information) or in medical literature. Medical literature means scientific studies published in a peer-reviewed national professional medical journal.
6. Any prescription and non-prescription supplies (such as ostomy supplies), devices and appliances.
7. Implantable contraceptive products.
8. Any fertility medication.
9. Any medications used for treatment of sexual dysfunction, including but not limited to erectile dysfunction, delayed ejaculation, anorgasmia and decreased libido.
10. Any prescription vitamins (other than prenatal vitamins), dietary supplements and fluoride products.
11. Medications used for cosmetic purposes, such as medications used to reduce wrinkles, medications to promote hair growth, medications used to control perspiration and fade cream products.
12. Any diet pills or appetite suppressants (anorectics).
13. Prescription smoking cessation products.
14. Immunization agents, biological products for allergy immunization, biological sera, blood, blood plasma and other blood products or fractions and medications used for travel prophylaxis (the prevention of travel-related diseases).
15. Replacement of prescription medications and related supplies due to loss or theft.
16. Medications used to enhance athletic performance.
17. Medications that are to be taken by, or administered to, a customer while the customer is a patient in a licensed hospital, skilled nursing facility, rest home or similar institution which operates on its premises, or allows to be operated on its premises, a facility for dispensing pharmaceuticals.
18. Prescriptions more than one year from the original date of issue.

Cigna reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

"Cigna", "Tree of Life" logo and "Together, all the way." are registered service marks, and "Cigna Home Delivery Pharmacy" is a service mark of Cigna Intellectual Property, Inc., licensed for use by Cigna Corporation and its operating subsidiaries. All products and services are provided by or through such operating subsidiaries, and not by Cigna Corporation. Such operating subsidiaries include Connecticut General Life Insurance Company, Cigna Health and Life Insurance Company, Tel-Drug, Inc., Tel-Drug of Pennsylvania, L.L.C., and HMO subsidiaries of Cigna Health Corporation. "Cigna Specialty Pharmacy Services" refers to the specialty drug division of Tel-Drug, Inc. and Tel-Drug of Pennsylvania, L.L.C., doing business as Cigna Home Delivery Pharmacy. All models are used for illustrative purposes only.
