

## Third-Party Vendors (TPV)

Expanding our national network presence through Third-Party Vendors

Cigna supplements its national network with leased network arrangements in select rural areas, which allow us to service clients located in multiple sites. The supplemental networks are fully integrated into our PPO offering and have been evaluated for access and quality. Cigna's leased network arrangements only represent 16% of the entire national network. Community Health Network (MT) & Sagamore Health Network (IN) are fully owned subsidiaries of Cigna.
